PASHION CUTS A SLASH IN THE SLEEVE An important feature of the new mode is the remarkably different treatment of the sleeves. Designs for sleeves are many and varied and all of them are very attractive. Not the least smart are those sleeves which bring into prominence the line from wrist to elbow.

The sleeves of the blue serge in the picthre have been slashed. A bit of fine Val. lace peeps out coquettishly from the slits. The strap is embroidered in red bugle heads.

How to Keep Young

And Guard Against a Premature Breakdown

A very large percentage of men and women of middle age break down prematurely from apoplexy, nerve, heart or kidney troubles.

The only way to avoid it is to conserve vitality and strengthen vital resistance by keeping the blood corpuscles properly balanced.

If people in this vicinity who have poor devitalized blood, are weak, run-down, nervous and ailing could only realize the benefit to be derived from Vinol, our cod liver and iron strength-creator and body-builder, druggists would not be able to supply the de-

## For the figure which tapers below the waist

The woman whose weight is mostly carried above the waist, has found it difficult to be correctly fitted in a corset. Those corsets which were full enough to be comfortable above the hips, were too large from there down.

And for this reason, there is a special Redfern Corset to meet her requirements! It holds the figure in a firm, straight-line contour, avoiding the appearance of "top-heaviness" which incorrect corseting would increase.

The perfection of Redfern design permits even the woman of heavier type to be fitted in a dainty, lightweight and thoroughly comfortable corset.

Redfern Corset models include every known type of figure.
